

Notes for Marissa

Mockup A:

- The navigation bar is clearer.
- I really like the setup of the discover the world page.
- Leading and point size was too small.
- I loooooovvvvee the little icons.
- A has a better overall sense of visual hierarchy.
- Blocks of color breaking things up better than lines.

Mockup B:

- The drop caps are really fun, using a real font might tone it down.

General:

- Find a fun sorta old looking display font for titles and the like.
